

Your skin health is mission critical

You take steps to protect patients' skin, now let's focus on yours

Protect your face from mask-related skin breakdown

No-sting barrier film

What it is: A sterile water-based polymer that creates a protective barrier over the skin

Used for: Protecting intact or damaged skin from irritation caused by friction, repeated application of adhesives and contact with bodily fluids

Ideal for: A long-lasting protective barrier

Key ingredient: Proprietary formula

What's not in the product: Dyes, fragrances, alcohol, lanolin, parabens, phthalates, sulfates, 1,4-Dioxane, triclosan and Q-15

CHG compatible

Catalog No.	Description	Qty.	HCPCS
CSC-BNS-WP	Wipe	50 ea/bx, 10 bx/cs	A5120

Barrier cream with Manuka honey

What it is: A skin barrier with Manuka honey designed to protect the skin

Used for: Protecting at-risk skin

Ideal for: Temporary protection of minor burns, cuts and scrapes. Dries the oozing and weeping of poison ivy, poison oak and poison sumac. Temporary relief from skin irritations caused by urine, diarrhea, perspiration, fistula drainage, feeding tube site leakage, wound drainage (peri-wound skin), anorectal itching and chafing. May provide cooling sensation.

Active ingredient: 20% zinc oxide and 0.1% menthol

Key ingredient: Manuka honey

What's not in the product: Dyes, fragrances, alcohol, phthalates, sulfates, triclosan, 1,4-Dioxane and Q-15

Not CHG compatible

Consider Silicone Foam Lite dressings for mask-related pressure injury prevention

- May be used behind the ears or with non-secured surgical masks.
- Foams are not recommended under N95 masks as they will alter fit and efficacy

*Reference your specific mask manufacturer's guidelines to prevent interference with fit and seal.

Cardinal Health™ Silicone Bordered and Non-Bordered Foam Lite

- Foam dressings made within absorbent thin foam pad, protective film backing and gentle silicone adhesive
- Used to absorb and retain exudate away from the wound and facilitate a moist environment
- Gentle silicone adhesive helps allow for atraumatic removal
- Not made with natural rubber latex
